

MIKON CEMS

Improve your profitability and performance with Mikon's automated environmental reporting.

In today's world, the environment is high on every political and commercial agenda. Emission quotas must be met or traded, and emissions have to be reported. Real-time reporting can help a business to stay within quota limits, saving it from potentially large fines.

Mikon CEMS ensures effective external and internal reporting, improves data quality, allows full traceability and provides 100% data reliability; it reduces the use of internal resources and allows for simplified administration. The level of knowledge and control provided by Mikon allows our customers to meet government regulations and beyond.

MIKON CEMS OFFERS:

- Efficient external/internal reporting
- Easy implementation
- Better data security
- Increased traceability
- 100% consistency in all data
- Reduced cost
- Uncomplicated administration
- A total solution towards government emission demands

MIKON CEMS IMPROVES YOUR RELATIONSHIPS WITH:

- Customers
- Authorities
- Company
- Owners
